

Demystifying FASD

ADHD?

Or something more?

A child comes to you displaying ...

- Poor judgment
- Impulsivity
- Memory problems

Average or even above average intelligence and verbal skills will mask the disabilities for the majority of individuals with Fetal Alcohol Spectrum Disorders (FASD).

This workshop will provide basic information on FASD and give you practical strategies for use in your practice.

Double ARC serves children and their families who are affected by prenatal alcohol exposure to reach their full potential through education, intervention and advocacy.

Double ARC is sponsored by the Sisters of Notre Dame.
